

## A TREATISE on the Horse— FREE!

We offer free this book that tells you about many of the diseases affecting horses and how to treat them. Call for it or write to local druggist or write us.

**KENDALL'S SPRAIN CURE**

Is a safe and reliable remedy. It will cure Rheumatism, Sprain and other bony enlargements. It is also a reliable remedy for Cuts, Scalds, Bruises, Cuts and Lacerations. It does the work safely at small expense.

Read what James M. Thompson, Fraser Mills, B. C. writes: "I would you kindly send me one of your book. I have a Veterinary book which I paid \$2.00 for, but before I can get more satisfaction out of it, I would like to have a book like yours. I have the book you sent me and I am very satisfied with it."

And Mr. Wm. Booth, of Gravelle, B. C. writes: "Your book is worth \$5.00 if only used as an aid to the Veterinarian. It is the most difficult for me to get. I have it, however, with the help of your book."

Kendall's Spavin Cure is sold at the uniform price of \$1.00 a bottle, or \$10.00 a dozen. If you cannot get it or free book, write to your local druggist, or write to:

**DR. S. J. KENDALL COMPANY**  
Essexburg, Maine, U. S. A.

## WOMAN WOULD NOT GIVE UP

Though Sick and Suffering; At Last Found Help in Lydia E. Pinkham's Vegetable Compound.

Richmond, Pa.—"When I started taking Lydia E. Pinkham's Vegetable Compound I was in a dreadfully rundown state of health, had internal troubles, and was so extremely nervous and prostrated that if I had given in to my feelings I would have been in bed. As it was I had hardly strength at times to be on my feet and what I did do was by a great effort. I could not sleep at night and of course felt very bad in the morning, and had a steady headache.

"After taking the second bottle I noticed that the headache was not so bad, I rested better, and my nerves were stronger. I continued its use until it made a new woman of me, and now I can hardly realize that I am able to do so much as I do. Whenever I know any woman in need of a good medicine I highly praise Lydia E. Pinkham's Vegetable Compound."—Mrs. FRANK CLARK, 3146 N. Tulip St., Richmond, Pa.

Women Have Been Telling Women for forty years how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It will pay you to do so. Lydia E. Pinkham Medicine Co., Lynn, Mass.

If this food is not sold in your place, we will send you freight prepaid a 125 pound sack for \$4.00, or a 60 pound sack for \$2.00. If in want of Beef Scraps, Poultry Bone, Oyster Shells, etc., write us for prices.

**Estate of Ellen L. McClary**

District of Orleans.  
The Honorable Probate Court for the District of Orleans:

To all persons interested in the estate of Ellen L. McClary late of Barton in said district deceased: GREETING:  
At a Probate Court, holden at Newport within and for said district on the 8th day of February, 1915 an instrument purporting to be the last Will and Testament of Ellen L. McClary late of Barton in said district deceased, was presented to the Court aforesaid, for Probate.  
And it is ordered by said Court that the 26th day of February, 1915, at F. W. Baldwin's office in said Barton, at 120 o'clock p. m., be assigned for proving said instrument; and that notice thereof be given to all persons concerned, by publishing this order three weeks successively in the Orleans County Monitor, a newspaper circulating in that vicinity, in said district, previous to the time appointed.  
THEREFORE, you are hereby notified to appear before said Court, at the time and place aforesaid, and contest the probate of said will, if you have cause.  
Given under my hand at Newport, in said District, this 8th day of February, 1915.  
B. M. SPOONER, Register.

## MACHINE GUNS.

These Deadly Weapons Fire Some 700 Bullets a Minute.

The machine gun, which pours forth a direct hail of small caliber bullets, is one of the deadliest weapons of modern warfare.

From the clumsy Gatling gun has come the modern "automatic," mounted on a light tripod, and weighing less than forty pounds. All the armies use these guns, which, although they vary somewhat in type, are essentially alike in their mechanism and in their effectiveness.

In the Benet-Mercie automatic machine gun of the French army a metal feed strip, or clip, that contains thirty ordinary army rifle cartridges is inserted in a slot on the right side of the gun. As the trigger is pulled the bolt mechanism is released and, guided by the main firing spring, pushes a cartridge into the rifle chamber.

The instant the cartridge is in place the breech mechanism locks and the charge is exploded. On its way through the rifle barrel, a little of the gas from the exploded powder is diverted through a hole in the side of the barrel, and so acts on a piston as to force the bolt mechanism back and to compress the main spring.

In returning, the bolt mechanism pulls the empty shell from the chamber and throws it out below, so that it does not interfere with the new cartridge that is now forced in from above.

The mechanism is so perfect that the operation described takes place in a small fraction of a second, and the bullets issue from the mouth of this deadly weapon at the rate of seven hundred a minute.—Youth's Companion.

## ACCIDENTAL DISCOVERIES.

Origin of Starch From Corn and of Silver Plating.

How to make starch from corn (maize) was discovered accidentally by Thomas Kingsford, a mechanic. One day he threw a mess of cornmeal mush into a garbage pail. His wife emptied some lye into the same pail, and in the morning when he emptied the pail he was astonished to find a small quantity of starch at the bottom.

Thomas Bolsover, a Sheffield mechanic, was mending the handle of a knife made of copper and silver. He saw these metals fuse together and the idea of silver plating was born in his mind. He laid a thin plate of silver on a heavier one of copper and heated them till the edge of the silver began to melt. He took them from the fire, let them cool slightly, then rolled and hammered them to the desired thickness. This was the origin of "Sheffield plate," all of which was made in this way until electroplating was invented.

Cornelius Dubbel left a bottle of aqua regia (a mixture of nitric and muriatic acids) on a shelf. It fell over, the acid ran down over a window and dropped into a bottle containing an extract of cochineal. This turned to a vivid scarlet. Dubbel found that the acid had dissolved some of the tin of the window casing and the combination had produced the new color. A few experiments added the most brilliant color to the list of dyes.

The accident by which Roentgen discovered the X rays is too recent to need repeating now.—New York World.

**Cause and Effect.**  
Maud—What makes Carol so disliked? Beatrice—She got the most votes for being popular.—Life.

## FEEL BLUE OR JUST STUPID?

Sluggish bowels and torpid liver usually go together and it does not take long for constipation to produce a bad condition—a feeling of languor or listlessness—the "blues," headaches, palpitation or other malady. Indeed, when in this condition the system invites more serious illness and is not able to throw off disease. Foley Cathartic Tablets are a wholesome laxative and cleansing cathartic. They act without inconvenience, griping or sickening.

Austin's Pharmacy, Orleans, Vt.; W. S. McDowell, Evansville; J. B. Holton, West Charleston.

## Records of Some Profitable Cows.

Carroll M. Lyon sends the Monitor the following table, giving the names and records of the cows in the Meadow Brook Cow Testing Association which have produced more than 40 pounds of butterfat or 1000 pounds of milk during the period of 30 days ending Jan. 31.

## Economy Hints

A penny saved is a penny earned.—Benjamin Franklin.

It is really a blessing not to have much money to spend for window curtains, because expensive lace curtains are not in especial good taste nowadays, while window nets and scrim of all sorts that cost not much more than a dollar a yard are the most acceptable sort of window covering.

It should be borne in mind in hanging one's window curtains that the curtains should be placed very close to the window pane. For this reason they hang on a rod of their own placed very close to the window at the top of the sash. The material should be measured carefully, so that it does not reach below the sill, and at the same time it should not be any shorter than the sash. The obvious purpose of the thin glass curtain is to shield those inside the house from outsiders, to soften the light and possibly to hide any unpleasant outlook. This being the case it is obviously absurd to drape it back with cords or loops. If more light is needed use finer net, and if the maximum of light is needed and there is no reason to shield those inside from sight then don't have any glass curtain at all.

The long side drape curtains serve quite another purpose. Their purpose is to bring the window into harmony with the interior, to conceal the ugly lines of the window frame and to give tone and character to the room. These side curtains should either extend all the way to the floor or should extend to the bottom of the window sill. They should never be as short as the glass curtain. If they are short there should be some piece of furniture placed below the curtain, as a table, a chair or a fern or other plant.

In the matter of these side drapes there need be no great expense. In a rather formal room they are usually lined. Chintz lined with a harmonizing satin is in exceedingly good taste. For bedrooms unlined chintz may be used to advantage. In certain rooms there is nothing more interesting for the side drape than some colored drapery net, as green fishnet curtain material or one of the interesting brown silk and linen curtain materials.

Nowadays valances are much in favor, and there is almost a necessity for having a band of material of some sort across the top of the window. This may be simply a piece of the side drape about six or eight inches wide run on the curtain pole between the two side pieces or it may be placed on a frame of wood made especially for that purpose which is nailed to the window frame over the side drapery. But there really is nothing too difficult in any of this curtain hanging for any ordinarily ingenious housewife to attempt. Half the battle in being your own interior decorator is in keeping your eyes open. The next time you see a curtain arrangement that suits you study it, and then with the aid of a little patience, a little assistance from the carpenter, scissors, needle and thread, hammer and nails you or any other woman can do wonders in hanging curtains.

## INDOOR GARDENING HINT.

How to Have an Indoor Garden in Winter Time.

The culture of plants in plain water is an interesting feature of the indoor garden. This is a much more extensive matter than most persons imagine, and the scope of the garden without soil is quite surprising. Those whose space is very limited may be interested in trying their hands at what can be accomplished without difficulty in this direction.

One of the most refreshing sights to the town dweller in midwinter is the vivid green of grass. Any kind of grass seed will germinate freely when it is kept moist in a warm room, and this habit may be turned to account in the solless garden. A very pleasing way of growing the grass seed is to obtain an old sponge. This should be thoroughly moist and some means of hanging it up must be adopted. The seed is sprinkled thickly over the surface, and for about two days the sponge is kept in the dark. This hastens the business of germination. Then hang the sponge up in a light, warm room, turning it about daily so that all sides obtain an equal amount of illumination. In a few days it will be a mass of greenery which will be an altogether delightful sight on a dull day.

**Household Hints.**

If the kitchen range gets a spot of rust use sandpaper on it.  
Clean white enameled woodwork with whitening on a moist cloth.  
Holes in kid gloves can be mended by first buttonholing around the hole and then filling in with buttonhole stitch. This should be done with thread matching the glove.

Tar may be removed from the hands by rubbing with the outside of fresh orange or lemon peel and drying immediately. The volatile oils dissolve tar so that it can be rubbed off.  
When you have need of much whipped cream add the white of an egg and you will require less cream. It cannot be detected.

## CALEDONIA COUNTY.

### WEST BURKE

Mrs. Lorinda Marshall is quite seriously ill.

Bert Dean of Rochester, N. H., was in town last week.

Mrs. and Mrs. W. G. Ainger spent Saturday in Barton.

Dale Roundy spent last week with his father in Montpelier.

J. F. Ruggles was on the sick list last week, but is much better.

Mrs. H. I. Foster is still very critically ill, and a trained nurse is caring for her.

Rev. R. F. Lowe occupied the pulpit in the Methodist church here Sunday evening.

Mrs. Emma Coburn inspected the O. E. S. chapter at Concord Thursday evening.

Miss Mabel Gleason of Lyndonville was the guest of Mrs. Stella Howland last week.

Mr. and Mrs. Geo. Stuart of St. Johnsbury visited at Mrs. M. M. Coe's last week.

Mr. and Mrs. Ernest Bricket of St. Johnsbury visited at A. L. Bean's during a part of last week.

Everett Beaton of Bellows Falls visited at Dr. E. E. Dickerman's during a part of last week.

Mrs. Bowley and daughter of Newport were the guests of Mr. and Mrs. Wallace Bowman Thursday.

Mr. and Mrs. John Woods and little son left for their home in Malvern, Ark., the first of the week.

Mrs. Fred Percival of Pike, N. H., was the guest of Mr. and Mrs. C. H. Coburn on Friday and Saturday.

Mrs. N. S. Colby has been quite ill with grip, during the past week and Mrs. H. C. Colby was called home from Derby Line to care for her.

Mrs. Lucy Hartwell has sold her home at the north end of the village to her sister, Mrs. Walter, and we understand that the writings will be made early in the spring.

The entertainment given by "The Gleaners" Thursday evening passed off very nicely, and the ladies cleared a little over \$12. Those who failed to be present and hear Mr. and Mrs. Burt sing missed a great musical treat, and the whole program was well worth hearing.

### LOVISA JOHNSON POWERS.

Mrs. Lovisa J. Powers died at her home in this village, Monday, Feb. 8, after a brief illness of pneumonia. She had been unusually well during the winter, having attended church frequently, and made occasional calls on friends. Lovisa Johnson was born in Newark March 15, 1831. At the age of sixteen she married Geo. E. Powers, and their home was on a farm in Newark for about twenty years. One child, a daughter, was born to them, who later became Mrs. Frank Smith of Lyndonville. Their second son, in Sutton, and about twenty-seven years ago they moved to West Burke. Mr. and Mrs. Powers were members of the old Eden Meeting House congregation, and when the Methodist church was built here were among those who gave liberally to its support. They both were faithful workers in the church, and did much toward its advancement along all lines. They lived to celebrate their silver and golden weddings, and also their sixtieth anniversary, and their married life was a very happy one. Their four grandchildren, Miss Edith Smith, now a deaconess in Gardiner, Me., Miss Elva Smith of Pittsburg, Pa., Fritz Johnson of Athol, Mass., Mrs. Nelson Burt of Concord, Mr. and Mrs. Wood of Barnston, Que., Arthur Burt of St. Johnsbury, Mr. and Mrs. Underwood of Barton, Mrs. Chamberlin of Bradford, Mr. and Mrs. George Smith of Lyndonville and Mrs. Frank Thompson of Newport.

### SUTTON NORTH RIDGE.

A social evening was enjoyed at John McFarland's Wednesday evening.

Miss Belle Fairbanks is spending a few days in Barton, Newport and Derby.

Morrill Curtis and Miss Mona Richardson were home from Lyndon for the week-end.

Mr. and Mrs. G. H. McFarland were called to Sheffield last week by the illness of Mrs. McFarland's brother, Clarence.

It is requested that some of the friends of Charlotte McFarland and Louise Fairbanks will present them with a time table of northbound trains. A little patience also will be acceptable.

A number of the friends of Mrs. Ingalls and Mrs. Olin Curtis gathered at the home of Mr. Ingalls Saturday evening and helped them celebrate their birthdays. Abundant refreshments were served, including two birthday cakes. Mr. Curtis's birthday was also last week.

### CUT THIS OUT NOW

If you don't want it today, you may next week. Send this advertisement and 3 cents to Foley & Co., Chicago, Ill., writing your name and address clearly. You receive in return three trial packages—Foley's Honey and Tar Compound for coughs, colds, croup and grippe; Foley's Kidney Pills for weak and disordered bowels and torpid liver; and Charles Tablets, a pleasant, wholesome and cleansing purgative, just the thing for winter's sluggish bowels and torpid liver. These well known standard remedies for sale by Austin's West Charleston.

## Rheumatism Sprains Lumbago Sciatica

Why grin and bear all these ills when Sloan's Liniment kills pain?

"I have used your Liniment and can say it is fine. I have used it for sore throat, strained shoulder, and it acted like a charm."—Allen Dunn, Route 1, Box 88, Pine Valley, Miss.

"I am a painter and paperhanger by trade, consequently up and down ladders. About two years ago my left knee became lame and sore. It pained me at nights at times till I could not rest, and I was contemplating giving up my trade on account of it when I chanced to think of Sloan's Liniment. I had never tried it before, and I am glad to state that less than one 25c. bottle fixed me up apparently as good as ever."—Charles C. Campbell, Florence, Texas.

## SLOAN'S LINIMENT

All Dealers 25c.  
Send four cents in stamps for a free TRIAL BOTTLE.  
DR. EARL S. SLOAN, Inc., Philadelphia, Pa. Dept. B

## No. 158

A farm for sale of 160 acres in a good location, only 50 rods from railroad station, 80 rods from nearest village, and one mile from school, is on the main road and near neighbors. Telephone in house. Lake water at house and well water at barn. Orchard. 155 a res in tillage. The land is smooth, level, free from stone and all machine mowing, cuts 150 tons hay. Five acres in pasture. Will winter 40 head. Pasture is watered by brook. Four miles to mill. Good wire fences. House is 1 1-2 story, 24x70, with ell 22x45. Cellar with stone foundation, also two outside entrances. 11 rooms on first floor, 13 rooms on second floor, all of which are well painted and papered. Stock barn 40x96, arranged for 28, basement used for stock. Horse barn in cow barn. Hay barn 20x30, shed 20x66, hen house 12x40, wood house 14x20, ice house 12x18.
